BOWDEN FEELS CONFIDENT.

Says Two Miles a Minute Will Be Done and He Will Be Here to See it Accomplished.

R. E. Bowden, of Daytona, the first man in the world to make a mile in an automobile under thirty-five seconds, is never in a question. W. J. Morgan put in two miles a minute could be done in ten months on the Ormond-Daytona Beach, Florida, road. "Yes, two miles a minute will be done, and I will be here to see it done, but I am sure that I cannot engage in the battle with Mr. Peter Timmer. You remember last year I drove my car in 22.45 seconds for the mile and that in driving that mile I used the engine of three racing machines I had with me. The other two machines were possibly two or three seconds faster than the one I used, and so I had plenty of engine power, and had behind the spindles, I think, (I am sure that I could have done three times as fast last winter.)

Mr. Bowden is a very modest sportsman, not given to much talk about his own ability, but his opinion can be taken as coming from one who knows what is lacking about.

ENTRIES HAVE CLASSIFIED

Entries for the races closed this morning with W. J. Morgan, in New York, and the list of entries is full will be published immediately. The reason that it is advisable not to receive entries after January 10, is owing to the fact that certain drivers have been entering in order to see who that entered in the races, and the late entries always cause annoyance to the committee of race management.

WILL MAKE ALL RECORDS.

It is fully predicted and expected that the first 1000 (thousand) yards automobile record for the world, made on the famous Ormond-Daytona Beach, will only remain a record figure until the coming week, January 22nd to 25th. There is little doubt but what every record from two to five hundred yards will be broken, and for the first time in history two miles in one minute will be accomplished, and the automobile will be the vehicle to do this figure.

The present records will be well worth remembering for comparison, as they were all done on the Ormond-Daytona Beach.

The distance, time and holder of the records are as follows:

Miles	Time	Holder
1	0:42.45	R. E. Bowden
1	0:41.25	Arthur McDaniel
1	0:41	Arthur McDaniel
20	13.24	E. R. Thomas
20	20.97	E. R. Thomas
40	31:04.35	Paul Sartori
80	58.31	H. W. Fletcher
100	1:12.24	H. W. Fletcher

The Ormond-Timmer says that "Morgan" will make a fifteen-mile record in the Florida races. "Morgan" is good, but Henry of France will probably have cause to tremble in the races, and the late entries always cause annoyance to the committee of race management.

Who Will Crown the Speed King? Moves Near-Bingham and Louie Foster Among the Leaders.
Interest in the "Time Trials" required for the most popular young lady in Florida to crown the Speed King at the coming automobile races is increasing daily. In yesterday's count, Miss Anna Chapman, of Jacksonville, led, while Daytona was mentioned prominently among the leaders by Miss Louise Foster, who had 589 ballots, and Miss Bessie Bingham with 547 ballots.

Chicks are being favored in several Florida towns to pack their respective racetracks, and before the final count, which will take place on January 17th, town promises to be sure supporters.

HEMERY HAS NEW RECORD.

A Kilometer Covered in 20.35 Seconds, Which is a Fraction Under the Record of 20.45 Seconds.
Henry, with his 500 horsepower, eight cylinder, Daimler machine, has made a kilometer in 20.35 seconds, which is a fraction under the rate of a mile in 1.35 seconds. An effort was made at first to hold back the news, but it was so encouraging to the manufacturer of the machine that it was called to this country.

On this track last winter MacDonnell set a 25 mile record in the Daytona race, which is a world record, but he could do no better than 22 seconds for the kilometer. John C. Wetmore, an authority on automobile men, says that a race is apt to go a bit slower for the kilometer than for the mile. MacDonnell's kilometer record accordingly is at the rate of but 27 seconds to the mile.

DAYTONA BEACH NOTES.

Items of Interest From the Progressive and Social Sections.
Peter B. Bogart, of Daytona, that scrooper from the pier, Saturday, morning about two feet in length.
Miss Eleanor Halliday, who spent the holidays very pleasantly at Orange City, returned home Saturday.
Mr. and Mrs. LeBlond, and two children, of Colchester, Va., are among the late arrivals. They will spend the season here.
W. W. Russell, of New York City, who has been visiting parties in the interest of the State, has arrived here to spend a while with friends.
New people are arriving almost every day and the vacant cottages, and other accommodations, are rapidly filled up.
Several parties have recently been gained for boys, and the final conclusion of several sales are expected to close this week.

Florida race in his memory.
The "Times-Star" in the same issue says that a French woman of mystery will take part in the Florida races and is known as "Mignon de Paris." This woman is known to be a very fast driver and has been a mystery in French races, but she will be no mystery in Florida as the local committee, composed of E. T. Reddick, A. E. Riker and John C. Wetmore, will carefully scrutinize all entries on the course. Ladies are barred.

Last year's kilometer record on the Ormond-Daytona beach was set by MacDonnell, 90 horsepower Napier, 22:1, L. R. Ross, driver, 24:1.6; W. R. Vanderbilt, 90 horsepower Mercedes, 24:3.5; E. R. Thomas, 90 horsepower Mercedes, 26:2.5; Paul Sartori, 90 hp. Fiat, 28:4.5; Charlie Dugan, driver, J. S. Lida's 90 horsepower Fiat, 32:3.5; W. J. Morgan, 100 horsepower White steamer, 32:4.5; R. E. Bowden, 100 hp. motor, 120 horsepower Mercedes truck, 24:3.5.

ORMOND OPENS TO-MORROW.

The Hotel Ormond, at Ormond, opens tomorrow, and is now the scene of much bustle and activity. Large numbers of the employees are arriving daily. Under the skillful management of Miss Clark, who has been housekeeper since the Ormond's earliest days, chaos is rapidly giving way to order, and everything is being done that will secure the comfort of the large number of guests that are already booked—some of them for the entire season, and not a few who, for some successive years, have made The Ormond their winter home.
Not many changes are apparent in or about the house, but the sidewalk and grounds have been widened, a most excellent plan, and an accommodation to pedestrians and automobilists who last year found the space rather limited. A few of the public have been planted along the edge of the walk, looking like orderly specimens of the plant life of the tropics, and the interest of all who approach the house. Interests spread among the trees are decorative plants, which add not a little to the beauty of the grounds.
ORMOND NEWS NOTES.
Cottage life at Ormond is rapidly delightful. Already many of the cottages have arrived. Among the first were Mr. and Mrs. James Smith, of Louisville, Ky., who occupying their new and attractive home for the first time.
Mr. J. L. Worthing, of Springfield, Mass., came next. His substantial resi-

Railroad Autocar.

General Manager J. E. Parrott, of the Florida East Coast Railway, has played an order for a motor rail-car equipped with seating fifty people. The first car will be in operation between Jacksonville, Palm Beach and Miami Beach. At the latter place the Florida East Coast System operates the Continental Hotel. W. J. Morgan is telling of the matter says:
"Mr. Fletcher told me that he was watching the Union Pacific experiments and as they have seemed to make a success of the motor car for the railroad, Mr. Fletcher has gone into the same line, it seems quite likely that in the future most railroads will be the motor car for at least short hauls."

Men in Petticoats.
One of the medical papers has been discussing the Cornishman custom of dressing grown up boys in petticoats and does not seem to be aware that it is merely a survival of what was once the general practice in Ireland. Half a century ago young men of nineteen might be seen—and were seen—within thirty miles of Dublin counting in petticoats in the country lanes. These were worn with high waists and long skirts reaching almost to the ankles, and a Holland countryman's smock completed the costume, but there was no difficulty in distinguishing the sexes by their dress. The man's waist was right under his armpits, while the woman's was in the usual place. When they walked out together they resembled a couple of figures from the Noah's ark of the toy shop, a proof of the real antiquity of the costume—London Tatler.

The Beauty of the Lilies.
"Er—Miss Hardy—Grace—do you not think that these valley lilies are very beautiful?"
"Not so beautiful as orange blossom, Mr. Jones."
And, thus assisted and encouraged, he presently drifted out upon the wide, wide sea of wedded bliss.

Intimiation.
"So the insolent fellow refused to pay his rent?"
"He did not say so in words, but he intimated it."
"How so?"
"He kicked me downstairs!"—Paris Journal.

The Merit of Good Work.
The great thing is to produce nothing of which, if it comes into broad light, you will be ashamed, and then whether it does come into broad light or no need not much trouble you.—Matthew Arnold.

TERSELY TOLD LOCAL ITEMS...

The City Council will be in session
this evening, and it is expected that
there will be considerable business to
come up at this meeting.

There are several automobiles in the
line that continue to run at a break-
neck speed. Marshal Zehner says, how-
ever, that they must keep within the
law, which is to run at a low speed.

Dr. Frank was called at the Daytona
News office this morning, and suggested
a check about the place on the New
Daytona road that is half a mile beyond
the Square Park bridge. He says im-
mediately to immediately repair some
cracks in the road to make it safe.

The first copy of the Tablet, of St.
Augustine, edited and published by Mrs.
M. M. Marley, is in the Daytona News-
Exchange table. The publication is
hand-fully printed in magazine form
and is packed with interesting society
and hotel news along the East Coast.

The cramped condition of the build-
ings at the corner of Second Avenue
and Beach Street makes it a dangerous
corner for vehicles, every kind. It
was suggested this morning by a Daily
News reporter that a suspension sign
be placed on this corner, so as to warn
people, particularly automobiles, of
the danger. It is hoped the council will
consider the matter.

INDEPENDENT TICKET NAMED

**Ticket Recently Nominated, Has Not
With Opposition.—Yacht Club Elec-
tion.**
Some members of the Halifax River
Yacht Club are of opinion that the ticket
recently nominated should meet with
opposition and they have accordingly
nominated an independent ticket which
is printed in full. The election will take
place on Wednesday evening, and con-
siderable interest is being manifested
among the members in the outcome.
The independent ticket is as follows:
President—G. B. Stearns
Vice-President—J. H. Allen
Sergeant—J. H. Allen
Secretary—G. F. Smith
Treasurer—Fred Conrad
Trustee—N. A. Lewis, J. G. Brown,
D. D. Buchanan, E. L. Rodgers, George
Bawley.
Regatta Committee—Geo. Bryner,
J. H. Allen, T. J. McManis, Geo. Con-
way, W. A. Gore.
Social Committee—J. W. Williams, J.
H. Clark, Dr. J. H. Foster.
Investigating Committee—Geo. F.
Smith, Geo. H. Clark, F. J. Siver.
Messengers—D. B. Merrill.

To Members.

The following letter was received by
the corresponding secretary of the Hal-
fax Yacht Club, and it may be of interest
to many, who takes this way of im-
porting it before the club. If any of the mem-
bers wish to go to Jacksonville, there is a
golden opportunity, and it is well for
our club to show an interest in these
matters.

From the Manufacturers' Pure Food
and Industrial Exposition to be held
January 4th to 10th, 1906.
Corresponding Secretary Palmetto Club.
Dear Member:—I take pleasure in in-
forming you that the ladies on the
board of managers of the Manufacturers'
Pure Food and Industrial Exposition
cordially desire your presence, and
that of your entire family, at the
Club Day, January 11th.
There will be special displays of interest
to the ladies, and the admission of a
rate of one and one-half times the
one way fare for the round trip for the
week beginning Monday, 30th, until Fri-
day 10th, of January.

All club members are requested to
wear the club colors—yellow and green.
The exposition building is open every
day, except Sunday, from 10 a. m. to 5 p. m.

INDEPENDANT TICKET NAMED

Ticket Recently Nominated Has Met With Opposition.—Yacht Club Election Wednesday Evening.

Some members of the Halifax River Yacht Club are of opinion that the ticket recently nominated should meet with opposition and they have accordingly nominated an independent ticket which is printed in full. The election will take place on Wednesday evening, and considerable interest is being manifested among the members in the outcome.

The independent ticket is as follows:

President—G. B. Seaman.
 Commodore—J. H. Allen.
 Vice Commodore—T. B. Collins.
 Secretary—Geo. F. Smith.
 Treasurer—Fred Conrad.
 Trustees—N. A. Lewis, J. G. Brown, D. D. Beckman, T. L. Rodgers, George Beardsley.
 Regatta Committee—Geo. Blymyer, J. H. Allen, T. J. McMurray, Geo. Courvoisier, W. A. Gove.
 Social Committee—J. W. Wilkinson, N. H. Clark, Dr. J. H. Pierson.
 Investigating Committee—Geo. F. Smith, Geo. H. Clark, F. J. Niver.
 Measurer—D. D. Merrill.

To Members.

The following letter was received by the corresponding secretary of the Palmetto Club, and, as it may be of interest to many, she takes this way of bringing it before the club. If any of the members wish to go to Jacksonville, here is a golden opportunity, and it is well for our club to show an interest in these matters.

From the Manufacturers' Pure Food and Industrial Exposition to be held January 4th to 18th, 1906:
 Corresponding Secretary Palmetto Club:

Dear Madam:—I take pleasure in informing you that the ladies on the board of managers of the Manufacturers' Pure Food and Industrial Exposition earnestly desire your presence, and that of your members, on Woman's Club Day, January 11th.

There will be special features of interest on that day, and the railroads offer a rate of one and one-third times the one way fare for the round trip for the week beginning Monday, 8th, until Friday 12th, of January.

All club members are requested to wear the club colors—yellow and green. The exposition building it open every day, except Sunday, from 1 to 11 p. m.

Respectfully yours,
 MRS. G. R. CHAMPLAIN,
 Corresponding Secretary.

DAYTONA AND ITS ATTRACTIONS.

DAYTONA is situated upon the west bank of the Halifax River at its widest expanse and midway between its source at Bellow Bay and its outlet at Mosquito Inlet. It is in latitude 29, seventy-four miles from St. Augustine and one mile from the Atlantic Ocean, and is acknowledged to be without a rival for beauty among the villages of the South. Its site is upon what is known as high hammock land that was crowned by nature with a most royal growth of majestic forest trees, and among these trees is the town of today, with its beautiful cottages and well-graded walks and streets. The result is that all along the wide avenues that intersect the town are lovely live and water oaks and hickories, many of them draped with graceful festoons of the gray Spanish moss, that overarch the street and walks, and among these are interspersed tall tropical palm-trees, glossy-leaved magnolias, fragrant bay and coral-berried holly, and many other varieties, while in many places the wild grape, the trumpet vine, the ampelopsis climb and cling about the branches forming shady nooks and adding grace and beauty.

The town lies parallel with the Halifax River, and extends for about two miles along the shore. The river is the delight of the yachtsman and forms one of the town's greatest attractions.

The main avenues that run parallel with or intersect the river are all 100 feet wide, except Beach street which is about sixty-five feet, but has a half-mile of open, beautiful water abutting upon its eastern side, where the salt waves ebb and flow and along and across which comes the cooling, invigorating and health-giving breeze from off the wide Atlantic, which temper and render the Halifax climate one of the most perfect in the world. Daytona has many miles of well-graded, macadamized and shell roads and streets, rendering it the

Wheelman's Paradise and added to these, but a mile away, are thirty miles of smooth, hard beach, that affords an unrivalled course for long-distance cycling and driving or automobile racing. No town of equal size, North or South, numbers so many wheelmen, and cycling is a favorite pastime with the tourists summer and winter.

The Beautiful Cottages that have been erected during the past years and are being built are rendering Daytona as famous for its fine homes as for its beautiful river, trees and avenues, and they are adding yearly to its attractions.

Not the least of these attractions to those securing homes in the South, and ranking second only to healthfulness and perfection of climate, is the fact that its population is chiefly composed of cultivated and intelligent people, accustomed to the refinements of home and social life. Added to these features are good churches, good public and private schools, stores, hotels, laundry, meat markets, novelty works, an opera house, electric lights for street and house illumination, a good telephone system, ice factory, Lily Water Works, and hot and cold baths, etc., and everything else can be procured that is necessary to make life comfortable. An important feature in the healthfulness of this town is the

Water Supply which is derived from numerous flowing wells, of which there are probably 300 in the corporate limits. This flow is secured by boring wells to the depth of from 50 to 120 feet, passing through several strata of rock, and this depth assures purity from all surface contamination. The water is slightly impregnated with magnesia and iron, and holds sulphur in the shape of gas, which soon passes away.

The Population of Daytona proper is about 1,800. Added to this is a suburban population on main shore and peninsula of about 1,000 at Kingston, Blake, Old Seabreeze or Goodall, Seabreeze and Silver Beach which are properly a part of the town and population.

Daytona Beach lies one mile east of the town. It is approached by three good bridges over the river and well-graded avenues, and is the principal summer resort south of St. Augustine. It has more tourists during the summer than all other places south of that city combined, and is also becoming a favorite winter resort. The beach is wide, firm and smooth, by many considered the finest in the world, and the surf bathing is safe and excellent summer and winter. People who have tried Northern and Western summer resorts declare that there are none so perfect as Daytona beach.

Automobile Race Meet. The Florida East Coast Automobile Association conducts an annual race meet on the beach, which has now a universal reputation as the greatest automobile race course in the world. The Daytona-Ormond Beach is hard, as macadam, and an ideal stretch of thirty or more miles without a break makes it the natural racing ground for America.

At low tide the beach is bare for 300 feet and neither carriage wheel, bicycle or pedestrian can make a hardly visible imprint on the smooth and well-packed sand. It is no common sight to see sail-rigged bicycles speeding with the velocity of the wind before a stiff breeze along the smooth beach, thus affording the most exhilarating sport known to man. Besides these, miles of hard-shelled, palm-fringed boulevards bring the lovers of

street and yields into direct sand with the mainland over the sand ridges which span the splendid Halifax River.

The beach from the sandy bluffs to the lowest point at ebb-tide, measures about 500 feet, and the average depth of the surf measures about two feet. A continuous gentle swell rolls in from the ocean from one to two feet in depth under normal conditions, making the beach an attractive and absolutely safe place for surf-bathing. Here the infant as well as the gray-haired veteran of many summers, can safely enjoy the luxury of a sea bath throughout the larger part of the year, while the strong and expert swimmer, can venture out further to test his strength and skill in battling with the inexhaustible powers of the mighty ocean.

The Peninsula lying between river and ocean is one half mile wide, and is being rapidly improved, and there are many fine cottages and several good hotels, an opera house, two ocean piers, beach pavilion and a large casino.

A Remarkable Feature at Daytona has been the yearly improvement in the style and value of the buildings that are being erected for homes. Men of capital of the North and West have become awakened to its advantages for winter residences, and valuable lots are being purchased and costly houses, beautiful in design and finish, are being erected, and beautiful homes, the abodes of wealth and culture are multiplying.

Seabreeze (City Beautiful) and Goodall are settlements on the Ocean side of the peninsula across the Halifax River from Daytona. At the foot of Ocean Boulevard, Seabreeze, a pier reaches 600 feet across the beach into the swelling surf of the ocean. This pier is a favorite resort of those who delight in the sport of fishing. The surf here abounds in trout, pompano, yellowtail, cavalle, whiting, drum, sheepshead and many other varieties of edible fish. During the fall season the famous sea bass affords royal sport, and it has been no uncommon occurrence to land a thousand pounds of this gamy fish in an afternoon, individuals of them ranging from fifteen to thirty-five pounds in weight. Not only does the ocean offer this splendid sport but the Halifax River, only half a mile back of the ocean, is equally famous for its fine fishing and the varieties that abound in the river are present in the river.

Hunting and fishing good. Experienced guides and dogs may be had at reasonable prices.

To Please Him. Mrs. Ascum—But why do you buy such expensive things when you know your husband can't afford them? Mrs. Wise—I just do it to please him. Mrs. Ascum—To please him?
